Wholesale Catalog of Mixson's High-Grade Seeds

For Merchant Trade Exclusively

We hand you herewith our Wholesale Catalog for 1917, in which you will find listed a full line of Vegetable, Field and Farm Seeds, together with Poultry Feeds, Remedies, Insecticides and Appliances.

We spare no pains to have MIXSON'S SEEDS high-grade in every particular, and they are as perfect as scientific breeding and careful handling can make them. We have them grown in the very best seed-producing centers of the world, and offer them to you with the full confidence that they will please your most critical trade. We make careful tests for germination and purity in our own laboratory, and for trueness to type and adaptability on our Ferndale Trial Grounds.

CHANGES IN PRICES

Prices quoted herein are those ruling January 1, 1917, and we will hold them as long as possible. However, the Seed crops in Europe, as well as in this country, on some very important items are very short—so much so that the Wholesale Seed Trade in this country is facing a critical situation. Our advice, therefore, is to buy early, as stocks of some items are sure to be exhausted before long. On Field Seeds and Poultry Feeds, where prices fluctuate very rapidly, we will issue weekly or semi-monthly our Yellow Quotation Card, giving current values. If you are interested in receiving it, write us, so that your name can be placed on our regular list. This Catalog gives prices only; for full descriptions see our Retail Descriptive Catalog.

TERMS

To approved customers our terms on Vegetable Seeds are 30 days, less 1% if remitted for in 10 days from date of invoice; Field Seeds, Poultry Feed, etc., are net cash on receipt of goods. If in sending us your first order you wish to open an account, send us satisfactory references, unless you are rated in the Mercantile Books.

Where advisable for the proper carriage of Seeds, we use Cotton Sacks, and they will be charged extra at cost. No charge for burlaps. Our prices are F.O.B. any depot or wharf in Charleston, and no drayage is charged.

ABOUT WARRANTING SEEDS.—We test for purity and germination each and every bag of seed we send out, and guarantee same to be satisfactory when shipped, but there are manifestly so many cases of a poor crop—too deep or too shallow planting, too much wet or too much dry weather; that it is impossible to guarantee what seed will germinate or produce after they have been planted. Therefore, in common with the other members of the American Seed Trade Association, while we take every care and precaution to have our seeds strong in germination and true to type, we give no warranty, expressed or implied, as to description, quality or productiveness or any other matter on any seeds we send out, and will not be responsible for the crop. If the purchaser does not accept the seed on these terms, they are at once to be returned.

MIXSON'S HIGH-GRADE SEEDS

IN

LITHOGRAPHED PACKETS

We supply in packets to retail at 5 cents each practically all Vegetable Seeds. The seed used is the same stock supplied to our largest bulk order customers, and the satisfaction they will give will help you in building up your seed business. We do not put out Commission Boxes, and hence have no old seed to take back at the end of the season. Our packets are being filled daily, as needed, and the seed in them are therefore fresh, pure and reliable.

Following are the Prices:

Per dozen.....	\$0.25
100 Packets and over.....	2.00 per hundred
250 Packets and over.....	1.85 per hundred
500 Packets and over.....	1.75 per hundred
1,000 Packets and over.....	1.65 per hundred

Above prices apply on all Vegetable Seed retailing at 5c per packet.

Display Rack Free

On orders amounting to 500 or more packets we will send a Display Rack, Free of Charge. This case will show off the packets to advantage. Packets are lithographed, and will be ready sellers. Moreover, your trade will be pleased with the high quality of Mixson's Seeds.

IRISH COBBLER POTATO

POTATOES is one of our heaviest items and we pay a great deal of attention to the selection of our stocks. The crop this season was very short, and in spite of the high prices quoted herewith, still higher quotations may be looked for before the season closes. Our stocks are grown especially for seed by careful growers, and must not be confused with stocks often offered by commission or grocery houses who know nothing about the pedigree of the stocks they offer.

Mixson's Selected Cotton Seed

Cotton Seed is the biggest single item in our line, and we think that we are safe in saying that we handle as much, or more, than any other one Seed House in this country. This department is in charge of an expert.

In the case of most varieties, we have our own seed stock, which we supply to have the crop grown from, and in this way we know that our stocks are pure, for we do not have to depend on picking up our stocks haphazardly at the last moment.

Inasmuch as the Boll Weevil is now well into Georgia, and, in fact, is expected to arrive in some counties of South Carolina during the 1917 crop, we call particular attention to our North Carolina grown varieties, such as Simpkins's and King. In sections where the weevil has already made his appearance, these two varieties are very generally used, inasmuch as being the earliest cottons in cultivation, they mature their fruit before the weevil gets in his work.

We wish further to call attention to Mixson's Wilt-Resistant Long Staple Cotton. Most farmers who would like to have planted Staple Cotton have been deterred from so doing on account of the fact that no wilt-resistant staple cotton had yet been bred. This variety is our exclusive introduction. If interested, we shall be pleased to give further information.

All seed packed in new 2½-bushel branded bags, with tag attached guaranteeing freedom from anthracnose. It costs money to put out seed in the way we do, but results have more than compensated for any extra expense.

MIXSON'S EUREKA CORN

Mixson's High-Bred Seed Corn

Our trade in Seed Corn is increasing every year, due entirely, we believe, to the high-grade stocks we put out. Our first care is to see that the crop from which our seed comes is pure and true to type; then our seed is saved only from selected ears, and that after the ears have been carefully butted and tipped. A great deal of the grading and cleaning is done right in our own warehouse, and we therefore know the quality of our stocks. Our Corn is all re-cleaned, packed in even-weight 2½-bushel bags. We handle Southern-grown stocks only, inasmuch as they are more acclimatized than Western-grown seed.

	25-bu. lots, per bu.	Per bu.
Mixson's Eureka	\$1.75	\$1.80
Blount's Prolific (Extra Selected)	1.90	2.00

Mixson's Six Ear Prolific	1.75	1.85
Hickory King	1.70	1.75
Improved Southern Snowflake	1.80	1.85
Shaw's Improved	2.25	2.35

SELECTED EARS OF CORN

We have a limited number of specially selected ears of Early White Dent, Improved Golden Dent, and Mixson's Eureka, at \$2.25 per 100 ears. A great many farmers prefer to buy their Seed Corn on the ear, and this is a very satisfactory way of selling them. Containers are free.

Mixson's High-Grade Field Seeds

We exercise the greatest possible care in the selection of our stocks listed in this department, and maintain in our building a modern and complete seed laboratory, where we test for purity and germination. Records are kept on everything we ship out. We also have our own cleaning machinery, where stocks are re-cleaned and re-graded. We do not believe that it is possible to find elsewhere stocks that are purer or of higher germination than ours.

Prices and Market Conditions

Prices on all Field Seeds are subject to fluctuations. Those we quote are in effect when this catalog goes to press, but seed crops of a great many items are short, and conditions incident upon the European war are such that changes in practically all items will be necessary in a short time. Therefore, for the benefit of our merchant customers who wish to follow the markets, we will issue weekly or semi-monthly during the planting season our Yellow Quotation Card. We will also be glad to quote by telegraph or letter any time.

Terms on all Field Seeds are Cash on Receipt of Goods

MIXSON'S PERPETUAL PASTURE MIXTURE

This celebrated mixture contains several grasses and clovers so combined that continuous pasturage is afforded. After long experimental work, we have no hesitancy in recommending this mixture for grazing purposes. It is best planted in the autumn and fall, though good results also can be obtained when planted in the spring. Per lb, 15c; 100 lbs, per lb, 14c.

Mixson's High-Grade Grains

SEED OATS

Our Oats are all choice re-cleaned stocks, carefully selected and tested. Our Oats are different from the stocks often offered by grocery and commission houses, and any difference in price will be more than compensated by difference in quality. All put up in new 5-bushel bags.

Prices liable to fluctuations. Ask for prices when ready to buy, or watch for our Yellow Quotation Card.

Inoculation for legumes is best supplied by means of FARMOGERM. It is the standard inoculation, and from our experience gives us the best results.

SPECIAL PRICE FOR LIMITED TIME We were very fortunate a short time ago in being able to purchase a supply of Farmogerm from the former Southern Distributors, who went out of the business. This purchase was made far below factory cost, and we are able, therefore, to offer a very attractive proposition on FARMOGERM for prompt shipment. Stock has been examined by one of the best bacteriologists in the South and pronounced strong and virile. The selling price of Farmogerm in acre sizes is \$1.50. Our price, as long as present stock lasts, is

1-acre size, 45c; 5-acre size, per acre, 40c

Our stock includes inoculation for all standard spring legume crops, as follows:

COW PEAS	PEANUTS	SOY BEANS
LESPEDeza	VELVET BEANS	ALFALFA
GARDEN PEAS	LIMA BEANS	GARDEN BEANS

We also have inoculation for fall crops, such as Vetch, Clover, Alfalfa, etc.

Mixco Brand Poultry Feeds

MIXCO Feeds are our own goods, made in Charleston, under our immediate supervision. They contain nothing but high-grade grains and seeds. Their high quality and cleanliness have made them ready sellers, and we have built up a big trade on them. They are the result of scientific investigation, and are compounded with a view of giving the greatest amount of egg production to money spent.

Owing to the very unsettled condition of the grain market, it is very difficult to quote definite prices, and those listed are prevailing when this catalog is issued. For prices from time to time, consult our Yellow Quotation Card, or write us.

MIXCO POULTRY SCRATCH

This is the best feed we know how to put out for the money, and is our biggest seller. It is a feed for grown fowls, and the ingredients are so blended in proper proportion that a balanced feed is the result. It contains Wheat, Cracked Corn, Oats, Barley, Kaffir Corn, Buckwheat, and Shell. It has made friends wherever used, as

our continually growing list of customers shows. Price: 50 lbs.....\$1.35
100 lbs 2.65

MIXCO BABY CHICK FEED

This is a carefully compounded feed, made especially for young chicks, giving them the feeds they require for proper development. It contains Wheat, Kaffir Corn, Cracked Corn and Millet Seed. Price: 50 lbs.....\$1.40
100 lbs 2.75

MIXCO DRY MASH

All poultry require a tonic to stimulate egg production, and we can highly recommend our Dry Mash for this purpose. It is made from Ground Corn, Wheat Bran, Middlings, Kaffir Corn, Cotton Seed Meal, Rice Meal, Meat Meal, Calcium Carbonate, and Salt. It is a high-grade product in every way, and is sure to please.

50 lbs\$1.40
100 lbs 2.75

DARLING MEAT SCRAPS

This is the very highest grade of Meat Scraps on the market, with a protein content of 55 per cent. Price per 100 lbs.....\$3.00

MIXCO PIGEON FEEDS

The raising of Pigeons is a business that has increased very rapidly in the last few years, and one of the principal difficulties that the pigeon raiser has encountered was the securing of a satisfactory feed. We have been experimenting for some time along this line, with Mixco Pigeon Feed as the result. This feed contains all the foods necessary to the proper nutriment of Pigeons, and you will find it a high-grade product. Owing to the wide divergence of opinion as to the advisability of feeding corn, we have made up three feeds—without corn, with cracked corn, and with whole corn. The other ingredients are Field Peas, Cow Peas, Wheat, Kaffir Corn, and Sunflower.

LAWN GRASS SEED This mixture is prepared by us, and offered to the trade only after exhaustive experiments which have conclusively proven to us that it will be satisfactory. It gives a permanent lawn, green through the entire winter. It contains a number of very excellent grasses and clovers, which come to perfection in succession, the result being a permanent lawn.

PACKED IN LITHOGRAPHED BOXES

With full directions for planting and care of lawns on each package. They make a very attractive package, and are ready sellers. Put up in quart boxes. Price, \$1.75 per dozen. Sold also in bulk at 20c per pound, or \$19.00 per 100 pounds.

One quart sows about 250 square feet.
